If you wanna come on down Down with your bones so white

And watch while the freight trains pound Into the wild, wild night

How I would love to gnaw To gnaw on your bones so white

And watch while the freight trains paw Paw at the wild, wild night

2004
End less ly hop down the road Borne by wind we

south ward blow and yonder wild and blue

The

wild blue yonder looms 'Til we are wracked with rheum

By roads by songs entombed
And all we wanna do is chew...

—and chew and chew...

Dear one,

drive on when all we wanna do...

Is chew and chew and chew...

Swansea
And if you wan-na come on down
Down with your bones so white
And watch while the freight trains pound
Into the wild, wild night
How I would love to gnaw
To gnaw on your bones so
