If you wanna come down
Down with your bones so white
And watch while the freight trains pound
Into the wild, wild night
How I would love to gnaw
To gnaw on your bones so white
And watch while the freight trains paw
Paw at the wild, wild night

2004
Endless hop down the road
Borne by wind we

Southward blow and yonder wild and blue
The

Wild blue yonder looms
'Til we are wracked with rheum

By roads, by songs entombed
And all we wanna do
Is chew

and chew and chew
Dear one,

drive on
When all we wanna do

Is chew and chew and chew
And if you wanna come on, down Down with your bones so white
And watch while the freight trains pound
Into the wild, wild night
How I would love to gnaw
To gnaw on your bones so
